Please find enclosed the identification page to be included in the passport for the above named foal/pony. The vet must also take a DNA sample and place it in the bag provided. Please note that, when the foal is inspected for registration, the Inspectors will check the microchip. **The qualified, practising veterinary surgeon, registered with the Royal College of Veterinary Surgeons or overseas equivalent, implanting the microchip must complete the silhouette form, indicating the location of the microchip with an 'M', filling in all sections and ensuring that it carries both their signature and veterinary practice stamp.** EU Legislation requires each chestnut to be drawn for whole coloured horses with less than three whorls. The vet must also take a DNA sample and place it in the bag provided. Please note that, when the foal is inspected for registration, the Inspectors will check the microchip.

For foals registered to 'overseas' breeders, we ask that such breeder confirm, by signing this form, that this is the only passport being applied for. Should the pony is question already have a passport issued by the country of origin then the Exmoor Pony Society will provide a certificate of registration showing the breeding of the pony using the Country of Origin UELN reference.

### **Description/Signalment**

From 1<sup>st</sup> January 2016 under Commission Regulation EC262/2015, only passports with a completed silhouette can be issued. The silhouette should be completed to a high standard, recording all features and be verified by you the vet.

Please provide the colour of the equine, distinguishing marks, acquired marks and visible whorls. For whole coloured horses with less than three whorls, EU legislation requires each chestnut to be drawn.

The Exmoor Pony Society is committed to protecting and respecting your privacy.

#### **PRIVACY POLICY**

This policy sets out the basis on which any personal data we collect from you, or that you provide to us may be used. This data may include your name, address, email address and telephone number.

For all equine passport applications and transfers of ownership, your name and address together with the equine's details will be recorded on our database and supplied to the Central Equine Database as required under the legislation. These details may also be requested by DEFRA and equivalent organisations in Scotland and Wales as well as enforcement bodies such as Trading Standards, Food Standard Agency and the Police.

In addition to the above, data held on ponies registered in Section 1 and their breeder's name and address will be published in the Society's stud book print outs and on the online studbook where breeders/owners can also opt to have their details including telephone and email contacts.
