

STALLION PARADE 2016

SENIOR SECTION

ANCHOR GINGER ALE A/580 3 y.o. by 99/22 Moorland Kingfisher out of A/427 Anchor Citrus by A/168-A Lime Juice.
Breeder/Owner Mr & Mrs D Wallace No 140

5 year old stallion by Kingfisher out of Anchor Citrus

Ginger has been shown with success as a youngster and last year as a senior stallion.

He is currently our oldest stallion and covered a couple of mares last year and his foals have inherited his 'thrive' genes as the foals were up and about and keen to suck very quickly (great news especially for some of our rare lines who seem to lack natural instinct to suckle and get going-no wonder they are rare!)

Ginger's dam Citrus is a beautiful example of an Exmoor with great colour and markings with deep chest, good bone and superb head - Ginger has inherited these features along with her bold nature.

CIDER APPLE 1/82 9 y.o. by Dunkery Nuthatch 78/144 out of Mabel 10/96 by A/52 Froggy
Breeder/Owner Mr & Mrs J Westcott

No 141

Cider Apple needs no introduction. He is a multi-champion as well as being 2014 Pony of the Year. He is a kind and sympathetic Stallion, who is a buddy to his whole family.

He has had a quiet year, doing a couple of successful shows and enjoying time being a pony.

He has passed the 'Exmoor torch' to his offspring.

Burrewelle Dolly Mixture, owned by Sam Harris, has been reserve supreme at the foal and youngstock show 2 years running, Winning at the Royal Cornwall and Youngstock Champion at Dunster Country Fayre.

May Blossom, Still owned by the Westcotts was taken out of the field, popped onto a trailer and took reserve champion at her first outing.

Cellini, Owned by Kate Scorey and Caroline Bull, Possibly the most well-known of his offspring, was already knocking on the HOYS Cuddy door as a 3 year old. Multi champion, all over the country and currently being broken to harness.

This stallion is not only a fantastic example of his breed, he also passes all his amazing attributes to his offspring. A true asset to the Exmoor Pony Gene Pool.

APPLE'S ORIGINAL 36/23 12 y.o. by 36/2 Apple Basket out of 12/158 Hawkwell Nikita by H17/3 Tawbitts Mr Toff
Breeder Mrs L Rundell **Owner** Mrs M Buttner No 142

Apple's Original is 12 years old. His registered number is 36/23. His sire is Apple Basket (36/2) who currently stands at stud in Germany and his dam was Hawkwell Nikita (12/158) a British bred Exmoor mare. Original was born in Vargarda, Sweden in 2004 at the Apple Stud, owned by his breeder, Louise Rundell. He stayed with the Rundell family until 2009, having a very successful showing career both in hand and ridden showing. He competed in Exmoor only and mixed breed classes in Sweden and Denmark. In 2009 he moved to the south of Sweden where he spent two years at the Vildrosens stud and then came to England in 2011 to the Teagle Stud in Somerset then to the ownership of Maddy Buttner at the MorningGlory stud on Exmoor in 2012. Original represented the breed at the South West Christmas Equine fair in December 2012, where he was superbly behaved both in the ring and meeting admirers outside it. He also contributed to the RBST Gene Bank last year, earning lots of brownie points at West Kington Stud for being very easy to work with, handle & collect from. His breeder Louise has been able to come over to the UK & show him at two breed shows now which has been wonderful for both of us.

His owner's initial interest was in his breeding and looks; however she was soon captivated by Original's delightful temperament. He is a real "people" pony; he loves attention and doing things! He is the first to the gate to greet any visitors and a very chilled and laid back character which makes him lots of fun and a delight to be around. He is equally kind with his mares, a great dad and very tolerant of other ponies in his vicinity, a real blessing in a stallion.

Original has sired 13 offspring; one of his sons is a licensed stallion in Sweden. His 13th foal is also my 13th foal, MorningGlory Flint who is shown in the young stock section today. He appears to pass on his fabulous temperament as well as his bone & substantial back end! He is currently visiting the Anchor herd where we hope he will produce some more beautiful stock after his daughter last year; Anchor Kindness clearly in inherited both his looks & temperament. He will also return to the MorningGlory stud for the remainder of the season so he's a very happy & busy boy this year!

MORNINGGLORY FLINT 479/13 1 y.o. by 36/23 Apple's Original 36/23 out of 12/204 Hawkwell by Design 12/204 by 49/38 Siskin **Breeder/Owner** Mrs M Buttner
No 150

MorningGlory Flint is by Apple's Original 36/23 out of Hawkwell by Design 12/204 & although technically a yearling he is actually only 6 months old as he was born very late in October. As you can see he isn't showing any signs of being backward for such a late start!

He appears to have inherited his father temperament, his behaviour at his inspection, only his third time of being handled was remarkable. He just let us pick up his feet etc without any fuss at all. This is first outing so I'm hoping his good behaviour will continue! I'm hoping to run him on & see how he turns out. He may be for sale later in the year.

TAWBITTS TOM H17/168 2 y.o. by H17/60 Tawbitts Golden Treacle out of H17/42 Tawbitts Opal by 178/1 Collabear
Campion Barle **Breeder/Owner** Mesdames Ablett & Langdon
No 151

His breeding is the result of two distinguished lines of our herd: Treacle, from the Golden Toffee Line and Opal who traces from the well-known old 12 herd destined for the moor-bred mares.

Thank you to Peter Yates and Tricia Gibson for allowing us to share their photographs.
